

Pin n°	Pin Name	Type	Main Function (after Reset)	Alternate Function
19	PA0/ 20mA Sink	I/O	Pin A0 (IPU)	
20	V <sub>SS</sub>	S	Ground	

**Legend / Abbreviations for Table 1:**

\* Depending on device. Please refer to [Section 7 "I/O PORTS"](#) on page 37.

I = input, O = output, S = supply, IPU = input with pull-up

The input with pull-up configuration (reset state) is valid as long as the user software does not change it.

Refer to [Section 7 "I/O PORTS" on page 37](#) for more details on the software configuration of the I/O ports.
